Natun Chariali, Raha, Nagaon, Assam, India

CAREER OBJECTIVE

A software engineer looking for solutions to difficult problems through programming, web development and app development. I wish to make the lives of the people easier and better through the use of technology.

EDUCATION

The Assam Valley School:
- Class 10 ICSE Examinations: 97.5%
- Class 12 ISC Examinations: 96%

The Vellore Institute of Technology, Vellore:
- CGPA: 9.47

LANGUAGES KNOWN

- English
- Hindi
- Assamese
- Marwari

HOBBIES

- Playing flute
- Playing tennis and cricket
- Debating
- Public speaking

TECHNICAL SKILLS

- Knowledge of programming languages such as Java, C, C++, Javascript and Kotlin
- Knowledge of Data Structures and Algorithms
- Basic knowledge of Front-End Development (Html, CSS, Javascript, Bootstrap,Tailwind CSS and React JS)
- Currently learning basics of Backend Development (Node JS)
- Also interested in App Development (have basic knowledge of Kotlin and Android Studio)

EXPERIENCE

- I worked as an Intern in a Pavers Block Factory where I managed a small workforce of 10 people and also learnt about the technical aspects of the working of the machines in the factory.

SOFT SKILLS

- Management: Being the School Council Secretary and a part of the Interact Club in school, I helped in conducting various events in my school; for example, Intra-school quizzes, Inter-School MUNs, tennis competitions, debates, workshops, etc.
- Designing and Editorial: In my school days, I started a monthly newsletter that aimed at giving important updates in the world to the school community, which I designed myself.
I was the Chief Editor of our Hindi newsletter and magazine. I was also a member of the school Yearbook team.
